MR. E-ZY

With Mr. E-ZY™ you can fill the inflatable on location without the need of a power plug. The built-in battery can even be used as a power bank for charging smartphones. The battery can be charged in 5 hours by plugging it in at home which gives the air pump an endurance of 40 minutes, allowing you to fill your inflatable up to 20 times. Adding only 200 grams to the weight of your product, Mr. E-ZY™ makes your product more appealing to consumers and ideal for outdoor use. **Mr. E-ZY™ makes life easy.**
